	<p>PAGE</p> <p>Size (mm): 230 X 285</p> <p>Bleed area: 5 mm</p>
	<p>DOUBLE PAGE</p> <p>Size (mm): 460 X 285</p> <p>Bleed area: 5 mm</p>

File Type

- PDF 1.4 or 1.6, Standard PDF/X-4
- Over 254 ppi image definition both for colours or greyscale
- ICC Profiles: [ISOcoated_v2_eci.icc](#)
- [PDF generation guide](#)
- [Rules for PDF certification and PDF Errors detail](#)
- If the PDF is generated with PostScript file, use [Job Options Piemme](#)

AVOID

- Text placement (or other meaningful details/info) closer than 10 mm from the inside of crop marks.
- Using small sized text with serifs, borders, or thin traits (under 0,3 mm), whether in positive, with multiple colours or in negative on a coloured background
- The use of frames, especially thin and placed at the end of the creativity: it can be tricky to offer balance between the two sides and/or continuity between two pages

Materials Provision

- **Magazine form:** 21 days before publication date
- **Ad material (pdf only):**
 - On Cover: 6 days before publication date;
 - Inner pages: 5 days before publication date;
- **The provided material must be uploaded on our portal Cydonia:**
